**BLU BAR 1000  
PUFFS**

USER MANUAL

# INTRODUCTION

**Ideal for vapers who prefer disposables but want more puffs and a longer-lasting device. Blu Bars, which include a 520mAh built-in battery and mesh coil technology for increased flavor, are expected to last up to 1000 puffs or 1-3 days for the average vaper.**

In addition to their impressive battery life and puff capacity, Blu Bars are designed for convenience and a great user experience. The sleek, compact design makes them easy to carry, and the variety of flavors ensures every vaper can find their favorite.

The mesh coil technology enhances flavor and ensures a consistent, smooth draw. Perfect for those on the go, Blu Bars offer a hassle-free, satisfying vaping experience. Whether you're new to vaping or experienced, these disposables are a reliable choice for your vaping needs.

# HOW TO USE BLU BAR 1000 PUFFS

## Unpack the Device

Remove the Blu Bar from its packaging. Ensure the device is intact and undamaged.

## Remove Safety Seals

Take off any protective caps or seals from the mouthpiece and air intake.

## Activate the Device

The Blu Bar is draw-activated, so simply inhale through the mouthpiece to start vaping.

No buttons or settings adjustments are necessary.

## Inhale and Enjoy

Take slow, steady puffs to enjoy the vapor and flavor. Pause between puffs to prevent overheating and to enjoy the experience.

## Monitor Puff Count

Keep track of your usage to estimate when the device may run out (up to 1000 puffs).

## Dispose of the Device

Once the vapor production decreases significantly or the battery dies, dispose of the Blu Bar responsibly.

Follow local guidelines for battery and electronic waste disposal.
