

IVG SWEETS RANGE 50ML

SHORTFILL E-LIQUID

USER MANUAL GUIDE

Introduction

IVG, a UK-based producer known for fruity, robust flavours, has produced the Sweets collection, which adds a nostalgic, confectionery layer to popular tastes. This e-liquid has a 70% VG blend and is ideal for creating clouds with powerful flavour when used with a sub ohm tank or kit.

Size & Space

60ml bottle containing 50ml e-liquid and Space For a 10ml Nic Shot. This configuration allows users to adjust the nicotine strength of the e-liquid according to their preference by adding the nicotine shot. It's a popular option among vapers seeking flexibility in their vaping experience, as they can tailor the nicotine content to their individual needs.

Flavors

The product comes with 4 different flavors and all four are best, each one has its unique taste and user experience. Cola battle, orange, strawberry and lemon, grab the one you wanted.

How Long It Lasts

A 50ml Bottle lasts between 10,000 and 15,000 puffs (depending on vaping style) and may refill a vape tank 25 times. As 10ml e-liquids normally last for 3000 puffs, a 50ml e-liquid should last five times longer, providing 15,000 puffs.

Specifications
