## XROS 3 Cartridges:

# NEW 0.6Ω MESH POD

The XROS series replacement pods currently offer 0.8Ω and 1.2Ω MTL options, featuring top-filling and mesh coils.

New additions include a 1.0Ω pod for a tighter MTL experience and a 0.6Ω RDTL pod for a more open inhale, while still delivering the exceptional flavor the XROS is known for. All XROS pods come with SSS Leak-Resistant technology to ensure a leak-proof experience.

# Accurate airflow control

The XROS 3 features precise adjustable airflow, enabling you to switch between tight MTL, loose MTL, and restricted DTL settings with various XROS pod options.

# Wow, Incredibly powerful:

Don't be fooled by the XROS' size. It's COREX heating technology and morph-mesh coil ensure fast, even heating for rich flavor.

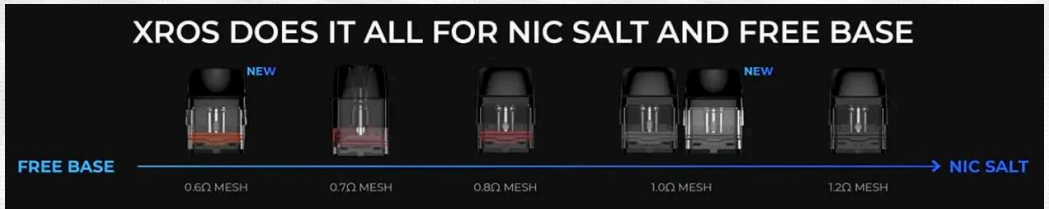

The fluffy cotton in XROS pods improves liquid delivery, prevents burnt taste, and extends pod life by up to 50%.

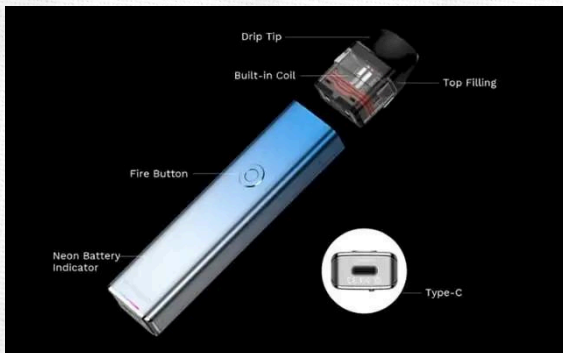

# Nicotine Salt and Freebase:

All four XROS pod options are compatible with both Freebase and Nic Salt e-liquids, with the 0.6Ω pod specifically designed to enhance the sweetness of freebase e-liquids.
